The following holiday schedules were announced: Decoration Day, Lexington at Huntington, Maysville at Charleston, and Frankfort at Portsmouth.

Fourth of July: Portsmouth at Lexington, Huntington at Maysville, and Charleston at Frankfort.

WITHDRAWAL OF TROOPS FROM MEXICO INEVITABLE.

San Antonio, Texas, April 22.—Major Gen. Hugh L. Scott, chief of staff of the United States army, and Maj. Gen. Funston, in charge of operations along the frontier and in Mexico, personally discussed the problems last night which have grown out of the punitive expedition in pursuit of Villa.

General Scott arrived from Washington last night. General Scott pressed not to know whether the American troops were to be recalled without having captured Villa. He was sent here by the Secretary of War to discuss the situation in detail with General Funston and to make to the secretary a personal report. Whether radical development in the Mexican situation is made early next week will depend on how complete General Hugh L. Scott regards the information which General Funston is able to lay before him, and upon the time it will require Secretary Baker, after General Scott renders his report, to decide upon some new course of action. Officers here are convinced that General Scott will admit the futility of continuing the pursuit of Villa under the existing circumstances.

TOBACCO BEDS HURT IN BOURBON COUNTY.

(Bourbon News.) Several Bourbon county tobacco growers have reported that the heavy frost of last Monday morning caused considerable loss to the tobacco beds, and many of them are completely ruined. These were where the plants were up, or just starting in the soil, as the ground was frozen more than an inch in depth.

Some of the tobacco growers will not reseed their tobacco beds until the coming week, as many of those who had supposedly early plants, will be compelled to re-sow. As a result of this loss to the plants, some of the most prominent tobacco growers of Bourbon county contend that the setting of tobacco will be late and that the crop will, in the main, be one of the latest in many years.

These growers are of the opinion that the frost did no material damage to the fruit crop.

RUSH ORDERS FOR NAVY REPAIRS

Washington, April 22.—Orders to speed up repairs and overhaul work on vessels of the Atlantic fleet have been sent to the commandants of the various navy yards by Secretary Daniels. In case of labor shortage the commandants are instructed to expedite the work by employing the ship's personnel.

The move is explained as a "preparedness test."
